

Our Story

Proudly located throughout the Midwest, we live our lives outdoors just as much as we do inside. We see the products we make transform the landscapes, communities, and the lives of those around us. We see our products used to make patios, walls, driveways, backyard projects and more. They are beautifully designed to transform your space and durable enough to withstand whatever life throws their way, no matter the season. After all, the outdoors are meant to be enjoyed year round, year-after-year. So, whether you choose to do the work yourself or to hire a professional, we are here for you. We're here to help you find inspiration, design your dreams, and to make the whole process easier. We understand that a boost in curb appeal can mean a boost in confidence, that memories are made around the backyard fire pit, and that the space of your dreams should be outside, not out of reach.

Project Planning Made Easy!

- Design your project and see it in 3D
- Detailed materials list lets you purchase from anywhere
- Pick up blocks at your local CARAGES® store, block plant, or set up delivery to your home
- · Check out literature, instructions, and videos to help you through your project

Design & Buy concrete landscape block projects on Caraca com and MIDWESTMANUFACTURING.COM

The best foundation for all patios and walkways.

Build it in a day, enjoy it for a lifetime.

Your project base - THE most important step for long lasting projects

BROCK WAY

- Patio Stones or Pavers
- **Brock PaverBase Panel**
- 1/2" Leveling Sand Remove Grass, Compact and Level Ground

IZ TRADITIONAL WAY

- Patio Stones or Pavers
- ▶ 1" Leveling Sand
- 4" Bag Paver Base
- Remove Grass, Compact and Level Ground

1 Panel Replaces 5 Bags of Base

How many do I need?

(Takes Minutes)

Sq. Ft. of Patio \div 6 = Number of Panels

*BROCK

Sq. Ft. of Patio ÷ 12 = Bags of Leveling Sand (1/2" Depth)

Example: 100 Sq. Ft. Project

 $100 \div 6 = 17 \text{ panels}$

100 ÷ 12 = 8 bags of sand

Add a weed barrier fabric.

Spread a thin layer of sand.

Install Brock PaverBase Panels.

Lay your pavers.

Work less, relax more.

Visit www.brockpaverbase.com for How-To Instructions and videos. Call Customer Service Any Time: Tim Newton 813.431.8259

TURFSTONE

Turfstone is the eco-friendly, permeable option for your project. Boasting a 40/60 ratio of green space to concrete, the Turfstone blocks filter water through the openings while stabilizing surrounding soil to prevent soil erosion.

USES: patios, sidewalks, walkways, residential driveways

BLOCK SQUARE FOOTAGE: 2.57 sq ft (face dimensions)

PATIO SIZE	NUMBER OF BLOCKS
8' x 8'	25
10' x 10'	39
10' x 12'	46
12' x 12'	56

WEIGHT: Approx. 67 lbs

RIVERFRONT

The large size of the Riverfront paver stones provide an open, spacious, and less cluttered looking patio surface. *Combine 3 block colors together to create a high definition appearance. Use Brown/Tan, Charcoal/Gray, and Charcoal/Tan for High Definition Sienna; use Charcoal/Gray, Charcoal/Maroon, and Gray/Maroon for High Definition Cobalt.

Our Guarantee

Midwest Manufacturing is dedicated to offering the highest quality concrete products to all of our guests. All of our interlocking concrete pavers, retaining wall blocks, and masonry blocks meet or exceed ASTM C-936, ASTM C1634-09/C55-09, ASTM C-1372, and ASTM C-90 specifications, respectively. Midwest Manufacturing guarantees its concrete products against manufacturing defects for as long as you own your home. This guarantee will be honored with proof of purchase. Midwest Manufacturing takes pride in offering our products to the professional installer and "do-it-yourself-er".

We do not require professional installation, however we do recommend it. Basic installation practices, available at www.midwestmanufacturing.com, must be followed. Midwest Manufacturing's obligation is limited to replacement of the defective product only. Midwest Manufacturing will not be responsible for lost time, replacement labor, or any other commensurate costs associated with replacement. The guarantee does not apply to product damage caused by impact, improper installation, excessive load, or salt application. Color matching can not be guaranteed. Efflorescence is a natural and temporary occurrence – Midwest Manufacturing cannot be held responsible.

Please Note

- Not all blocks are stocked in all locations.
- · All block sizes given are actual; sizes may vary within a given tolerance.
- Some items are only available special order.
- Every effort has been made to ensure accuracy in the color representations found in this literature. However, due to the natural characteristics of concrete, actual colors may vary slightly. We recommend viewing the actual product while making your decisions.
- It is recommended that you purchase enough material to complete your entire project. Color will vary sightly from lot to lot, so materials purchased at a later date may not be a perfect color match.
- Hazy white or chalky looking surfaces are due to efflorescence. Efflorescence is a natural process which can occur as concrete cures. Efflorescence is temporary and not considered a manufacturing defect.
